Dear Mr. Weisberg,

The vital importance of your work can not be over-stated. I am so grateful that you, and a few other honest, rational people have labored so long and hard on bringing forth the truth about such an important event as took place in Dallas that fateful day and all that followed.

I have read "Case Open" as well as numerous other books on the subject, and have been to Dealy Plaza in Dallas. I was reluctant to buy "Case Closed" (HA) because I did not want to honor it with my hard earned money on the purchase. It may be slightly encouraging for you to know that in my travels to book stores, Mr Posner's slop is not selling (plenty to be had) while other books are sold-out or going fast. It may say something about the mind-set of the people.

I would like a price list and some information on your previous books listed in the front pages of "Case Open". Hard cover books would be preferable.

Again, thank-you for all your hard work and for enduring all that was thrown at you and in your way. God Bless!

Sincerly Yours,
Michael LaMorte
